

K-LOVE has been an important support to our family on a daily basis. The value of having Christian music and commentary that positively affect our perspective and encourage us through struggles on a daily basis cannot be assessed a monetary value.

Even more important to us is the fact that our 9 year old son doesn't even WANT to listen to hip hop, rap, or the scores of other radio stations whose messages and song lyrics are questionable at best. We choose to support K-LOVE financially because they bless not only us, but other people in our community that need blessings. When we made a difficult move from AZ to CA 3 years ago, we could still listen to K-LOVE. You would be amazed at how being able to hear the same station in a new city made a difficult move and transition easier. When we moved back to Arizona, the first thing we did was set our dials to K-LOVE and their sister station, AIR1 (including our radios at work). Please allow this community asset to continue reaching out to people who need positive input, encouragement, and who would rather listen to contemporary Christian music than any other format. Thank you. The Wahlin Family.
